

## BendPak 4.5 tonne 2 post baseless lift

### XP-SERIES – EXTRA POWER / EXTREME PERFORMANCE

Our newest line of XP-Series two-post lifts, offer a wide selection of durable, safe and reliable systems for virtually every lifting application. These rugged lift models easily have the capacity to safely lift your largest full-size pick-ups and commercial vehicles yet still provide specific lifting capability for sport and compact vehicles, both foreign and domestic. You'll find the new XP-Series lifts are the perfect addition to your shop if you're looking to make more money in less time than ever before.

### XP-SERIES – 10,000-POUND MODELS

These advanced, state-of-the-art XP-Series models are rugged 10,000-pound capacity clearfloor lifts that feature a “Dual-Synchro” overhead equalization system and user-friendly controls. Dual direct-drive low-pressure cylinders are used that minimize leakage and reduce the workload placed on the entire hydraulic system, an exclusive BendPak design feature saving you maintenance costs throughout the life of the lift. Sixteen individual maintenance-free UHMW load bearings, single-piece columns, extra-tall lifting carriages and oversize 5” cable sheaves are an exclusive feature found only on BendPak XP-Series lifts. This boosts performance still further and vastly increases the life expectancy of the lift, a lift most likely to be the last one you’ll ever have to purchase.

Our 10,000-pound capacity XP-Series lifts are also available with specialty arm configurations to increase productivity.

- Triple-Telescoping Arms - increases overall arm positioning to precisely lift variety of different wheel base vehicles that have unibody construction and/or provided pick-up points on the vehicle.
- Low-Profile Arms – squeeze under the lowest compact and sport vehicles.
- Best Of Both Worlds – Triple-Telescoping, Low-Profile Arms – ‘Nuff said.

Model	XP-10C
Lifting Capacity	10,000 Lbs. / 4536 Kg.
Overall Height(*)	145" / 3683 mm
Overall Width (Outside of Base Plate	132" / 3353 mm
Width (Outside of Columns)	124" / 3150 mm
Floor To Overhead Switch(*)	141" / 3581 mm
Inside Columns	102" / 2791 mm

Reach (Front Arm Min.)	32" / 813 mm
Reach (Front Arm Max)	47" / 1194 mm
Reach (Rear Arm Min.)	35" / 889 mm
Reach (Rear Arm Max)	52" / 1321 mm
Min. Pad Height (**)	4" / 102 mm
Rise	69" / 1753 mm
Max Lift Height (Pad Only)	73" / 1854 mm
Max Lift Height (6" Adapter)	79" / 207 mm
Drive-Thru Clearance	93" / 2362 mm
Motor (***)	220 VAC / 60 Hz. 1Ph.
Time of Full Rise	45 Seconds
Max Load Per Arm	2,500 Lbs. / 1134 Kg.

\* An optional bolt-on top extension for columns raises the overhead bar an additional 24".  
Must be ordered from factory at time of order.

\*\* Low profile arms are available as an option.

\*\*\* Special voltages available upon request.

The design, material and specifications are subject to change without notice.
